## Q. 1 A Select correct option \& re-write the sentence. (Any 8)

1 ABC Ltd. manufactures a single product which it sells for Rs. 50 per unit.
Fixed costs are Rs. 80,000 per annum. The contribution to sales ratio is $50 \%$. ABC Ltd's breakeven point in units is:
a) 3,500
b) 3,000
c) 3,200
d) 3,400

2 A company plans to produce 8 sell 5,000 units of product $C$ each month, at the selling price of Rs. 20 per unit.
The unit cost comprised of Rs. 8 variable cost $\&$ Rs. 6 fixed cost. Calculate the margin of safety as a percentage of planned sales:
a) $60 \%$
b) $\mathbf{5 0 \%}$
c) $65 \%$
d) $75 \%$

3 A budget that gives a summary of all the functional budgets is known as:
a) Capital Budget
b) Flexible Budget
c) Master Budget
d) Discretionary Budget

4 The fixed variable cost classification has a special significance in the preparation of:
a) Capital Budget
b) Flexible Budget
c) Master Budget
d) Cash Budget

5 When preparing a production budget, the quantity to be produced equals:
a) Sales quantity + opening stock + closing stock
b) Sales quantity - opening stock + closing stock
c) Sales quantity - opening stock - closing stock
d) Sales quantity + opening stock - closing stock

6 A job requires 12,000 actual labour hours for completion $\&$ it is anticipated that there will be $20 \%$ idle time.
If the wage rate is Rs. 10 per hour, what is the idle cost for the job?
a) Rs. 19,200
b) Rs. 24,000
c) Rs. 28,800
d) Rs. $\mathbf{3 0 , 0 0 0}$

7 Of the four costs shown below which would not be included in the cash budget?
a) Depreciation of the fixed asset
b) Office salaries
c) Commission paid to the agents
d) Capital cost of a new computer

8 PG Ltd. makes a single product $\&$ is preparing its material usage budget for next year. Each units of product requires 2 kgs . of material, $\& 5,000$ units of product are to be produced next year. Opening stock of material is budgeted to be 800 kgs . \& PG Ltd. budget to increase material stock at the end of next year by $20 \%$. The material usage budget for next year is:
a) $8,000 \mathrm{~kg}$
b) $9,840 \mathrm{~kg}$
c) $10,000 \mathrm{~kg}$
d) $10,160 \mathrm{~kg}$

9 If a company uses only one type of material, then following variance cannot be found
a) Material cost variance
b) Material price variance
c) Material usage variance
d) Material yield variance

Telephone charges is
a) Variable cost
b) fixed cost
c) semi variable cost
d) none of the above

## State whether following statements are true or false (Any 7)

Ans.
1 Equal emphasis should be laid on favourable \& unfavourable variances.
TRUE
2 Material yield variance is the difference between the standard yield specified 80 the actual yield obtained.
TRUE
3 Analysis of variances is done in order to determined the reasons for increase or decrease in profit.
TRUE
4 A system of budgetary control can not be used in an organization when standard costing is being used.
FALSE
5 Budgets are always prepared for past.
6 Forecast \& budget are one \& the same. $\quad$ FALSE
FALSE
The relationship between contribution \& turnover is represented in the form of profit volume ratio. TRUE
8 At break-even point, fixed cost plus profit is equal to total sales. FALSE
9 Margin of safety = Break-even sales + Fixed cost. FALSE
10 A high margin of safety usually indicates high fixed overheads. FALSE

| A. 2 | Statement Showing Contribution per Direct labour Hour |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | particulars | $\begin{aligned} & \mathbf{X} \\ & ₹ \end{aligned}$ | $\mathbf{Y}$ | $\bar{z}$ |
| a. | Selling Price per unit | 60 | 55 | 50 |
| b. | Variable Cost per unit: Direct Materials Cost Direct Labour Cost Variable Overheads | 20 8 7 | 12 6 13 | 16 8 8 |
|  | Total (b) | 35 | 31 | 32 |
| c. | Contribution per unit (a-b) | 25 | 24 | 18 |
| d. | Direct Material Per Unit (in kgs) | 5 | 3 | 4 |
| e. | Contribution per kg of Direct Material (C/d) | 5 | 8 | 4.5 |
| f | Ranking | II | I | III |

a. The maximum direct Material is $36,000 \mathrm{~kg}$ and would be utilised in the following order to yield maximum profit:

| Product | Raw <br> Product- <br> mix | Total <br> Material <br> P.U. | Material <br> (Kgs) |
| :--- | :---: | :---: | :---: |
| Y (Maximum Demand) | 5,000 | 3 | 15,000 |
| X (Maximum Demnad) | 4,000 | 4 | 16,000 |
| Z (working note) | 1,000 | 5 | 5,000 |
| Total Kgs |  |  | $\mathbf{3 6 , 0 0 0}$ |

Calculation of Profit

| Product | No. of <br> units | Contributi <br> on per unit | Total |  |
| :--- | ---: | ---: | ---: | :---: |
| X | 4,000 | 25 | 100,000 |  |
| Y | 5,000 | 24 | 120,000 |  |
| Z | 1,000 | 18 | 18,000 |  |
| Total Contribution |  |  | 238,000 |  |
| Less: Fixed Overheads (WN 2) | $10,000)$ |  |  |  |
| Profit |  | $\mathbf{1 7 8 , 0 0 0}$ |  |  |

## Working Note:

1 Production units of Product Z

Balance Kgs for Production of $\mathbf{Z}=$

Therefor Prodcution of $\mathrm{X}=$

$$
\begin{aligned}
& 36,000-15,000(\mathrm{Y})-16,000(\mathrm{X}) \\
= & 5,000
\end{aligned}
$$

Balance Kgs
Kgs required per unit
$=\underline{5000 / 5}=1,000$ units

2 Fixed Overhead are given in the Question as Per unit Rs. 10 so we need to calculate Budgeted Fixed OH based on Budgeted Units and not based on Actual Units Produced

| Product | No. of <br> units <br> Budgeted | Cost per <br> unit | Total |
| :---: | ---: | ---: | ---: |
| X | 1,800 | 10 | 18,000 |
| Y | 3,000 | 10 | 30,000 |
| Z | 1,200 | 10 | 12,000 |
| Total Fixed Cost |  |  | $\mathbf{6 0 , 0 0 0}$ |

| \% Capacity Utilisation | P.U. | 50\% | P.U. | 60\% | P.U. | 80\% |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Budgeted Production |  | 10,000 |  | 12,000 |  | 16,000 |
| Sales | 20 | 200,000 | 20 | 235,200 | 21 | 336,000 |
| Variable Cost |  |  |  |  |  |  |
| Material | 10 | 100,000 | 10.20 | 122,400 | 10.5 | 168,000 |
| Wages | 3 | 30,000 | 3.00 | 36,000 | 3.0 | 48,000 |
| Factory Overheads | 1.8 | 18,000 | 1.80 | 21,600 | 1.8 | 28,800 |
| Admin overheads | 1 | 10,000 | 1.00 | 12,000 | 1.0 | 16,000 |
|  | 15.8 | 158,000 | 16 | 192,000 | 16.3 | 260,800 |
| Fixed Cost |  |  |  |  |  |  |
| Factory Overheads |  | 12,000 |  | 12,000 |  | 12,000 |
| Admin Overheads |  | 10,000 |  | 10,000 |  | 10,000 |
| Total |  | 22,000 |  | 22,000 |  | 22,000 |
| Profit |  | 20,000 |  | 21,200 |  | 53,200 |
